i Introduction

Welcome to **The Young Corporation** a multinational manufacturing and trading organization. Founded in 1986 by its President and Chief Executive Philip Young it has its roots in the manufacture and supply of office furniture. It has developed in 20 years from being a local Indonesian company to become a worldwide organization with operations in 10 countries and has a continuing growth plan to increase this network. This continued expansion has enabled the corporation to establish itself as a world leader in its market place. Unlike many organizations in a very competitive arena **The Young Corporation** has achieved its position by a blend of innovation, development, engineering, manufacturing and product sourcing, leading to further opportunities in alternative markets. Decisions taken during recent years have led to the group increasing its manufacturing base to include major engineering plants in China, Indonesia, Ukraine, and Egypt in addition

to the production of industrial machinery, with our partners in China. Serving our customers worldwide with direct subsidiaries in USA, Canada, Mexico, Brazil, United Kingdom, Ukraine, Egypt, South Africa, China, and Indonesia we are proud to offer product ranges that have been tested to BIFMA in USA, AFRDI in Australia and BS/EN in the UK. With first class engineering and design back-up to support it, **The Young Corporation** is now able to use its international trading experience to develop other areas of interest and to continue to develop through expanding product ranges and distributor support worldwide. The contents of this presentation are intended to serve not only as a product overview but also as a comprehensive reference document. Should you need any further information our support teams throughout the world will be happy to help you.

Components

2-3	Introduction & Contents	34-35	Fixed Armrests
4-5	Castors & Glides	36-37	Adjustable Armrests & PU Pads
6-7	Bases & Foot Rings	38-39	PU & Cantilevers
8-9	Covers & Manual Spindles	40-41	Kit Chairs
10-11	Gas Lifts, Stool & Seat Plate Mechanisms	42-43	Kit Chairs
12-13	Standard Mechanisms	44-45	Kit Chairs
14-15	Standard Mechanisms	46-47	Wooden Chair, Nuts, Screws & Bolts
16-17	Heavy Duty Mechanisms		
18-19	Heavy Duty Mechanisms		
20-21	Tilt Mechanisms		
22-23	Knee Tilt Mechanisms		
24-25	Back Bars & Brackets		
26-27	Plastic Gaiters & Mechanism Covers		
28-29	Plastic Back Covers		
30-31	Mesh Backs		
32-33	Plywood & Seat Pans		

Upholstery

50-51	Metal Legs
52-53	Wooden Legs & Plastic Feet
54-55	Nail Guns & Staples

Standard Mechanisms

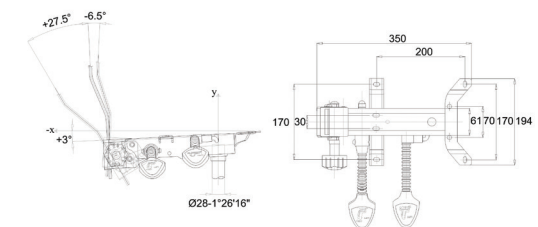

Standard Euro Fit Mechanism YM 2101 1000

Euro fit mechanism with 2 lever controls for both seat height adjustment and back rake angle adjustment to $+28^\circ$. To take oval back bar.

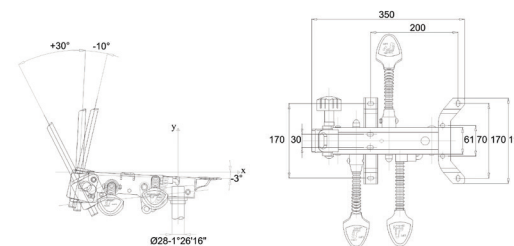

Standard Euro Fit Mechanism YM 2201 1010

Euro fit mechanism with 2 lever controls for both seat height adjustment and back rake angle adjustment to $+27.5^\circ$. To take flat back bar.

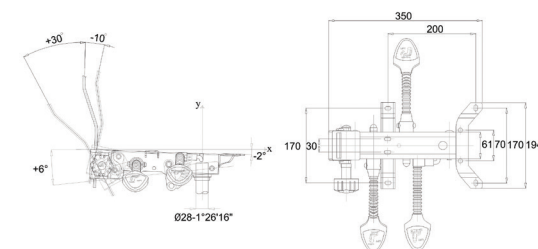

Standard Euro Fit Mechanism YM 2103 1000

Euro fit mechanism with 3 lever controls for seat height adjustment, seat tilt angle adjustment and back rake angle adjustment to $+30^\circ$. To take oval back bar.

Standard Euro Fit Mechanism YM 2203 1010

Euro fit mechanism with 3 lever controls for seat height adjustment, seat tilt angle adjustment and back rake angle adjustment to $+30^\circ$. To take flat back bar.

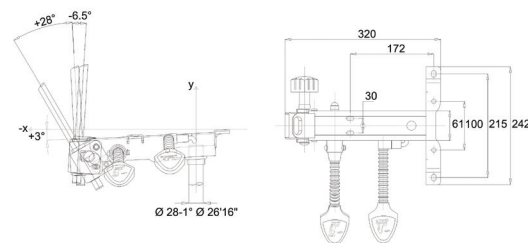

Standard Mechanisms

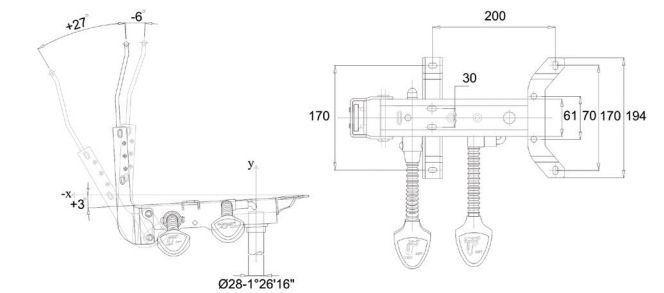

Standard Mechanism YM 2401 1000

Standard mechanism with 2 lever controls for seat height adjustment and back rake angle adjustment to $+28^\circ$. To take oval back bar.

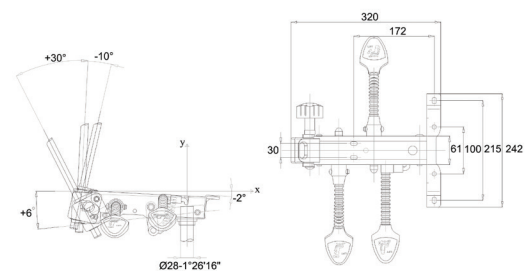

Standard Ratchet Mechanism YM 2901 1000

Euro fit auto-back mechanism with 2 lever controls for seat height adjustment and back rake angle adjustment to $+27^\circ$.

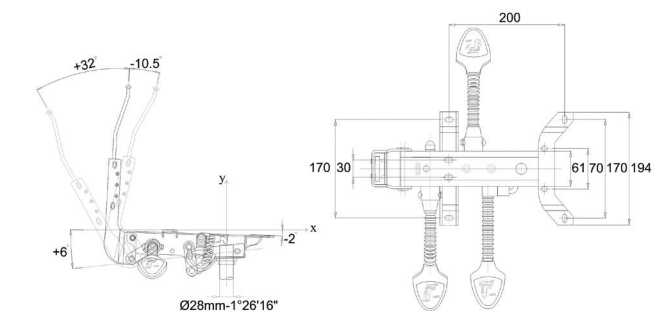

Standard Mechanism YM 2403 1000

Standard mechanism with 3 lever controls for seat height adjustment, seat tilt angle adjustment and back rake angle adjustment to $+30^\circ$. To take oval back bar.

Standard Ratchet Mechanism YM 2903 1000

Euro fit mechanism with 3 lever controls for seat height adjustment, seat tilt angle adjustment and back rake angle adjustment to $+32^\circ$.

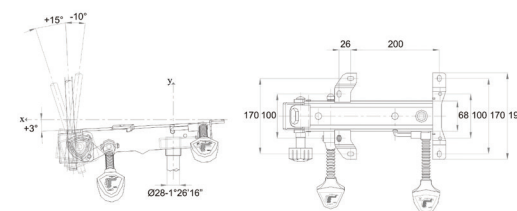

Heavy Duty Mechanisms

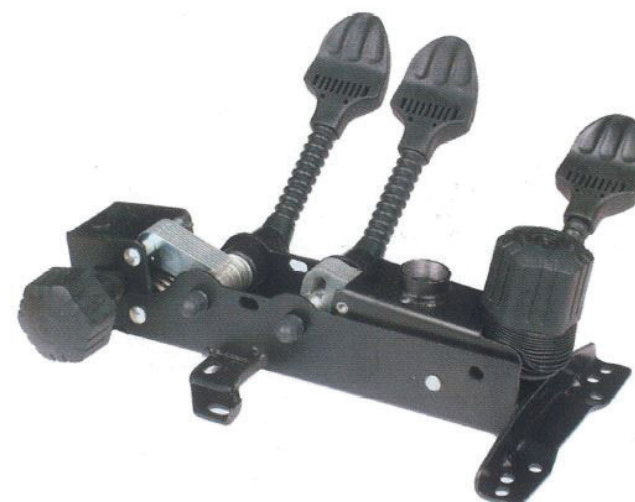

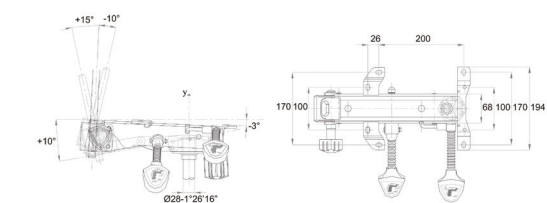

Heavy Duty Mechanism YM 4101 1000

Heavy duty Euro fit mechanism with 2 lever controls for seat height adjustment and back rake angle adjustment to $+15^\circ$. To take oval back bar.

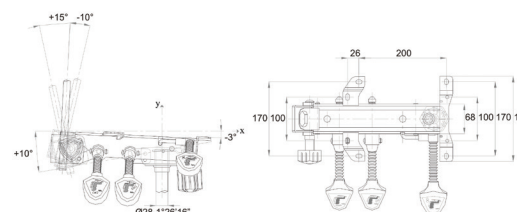

Heavy Duty Mechanism YM 4105 1000

Heavy duty Euro fit synchro mechanism with levers for seat height and 2:1 synchro back/seat adjustment knob for tension control. To take oval back bar.

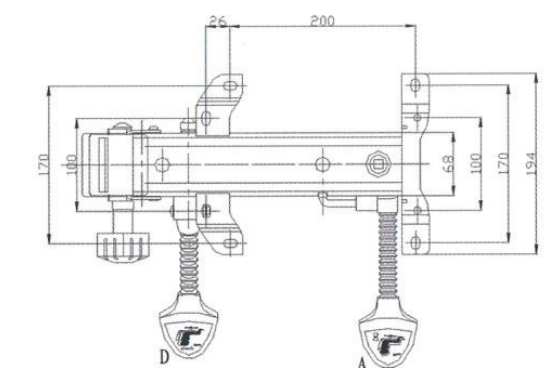

Heavy Duty Mechanism YM 4103 1000

Heavy Duty Euro fit mechanism with lever controls for seat height, back rake and seat tilt adjustment knob for tension control. To take oval back bar.

Heavy Duty Mechanism YM 4201 1000

Heavy duty Euro fit mechanism with lever controls for seat height and back rake adjustment

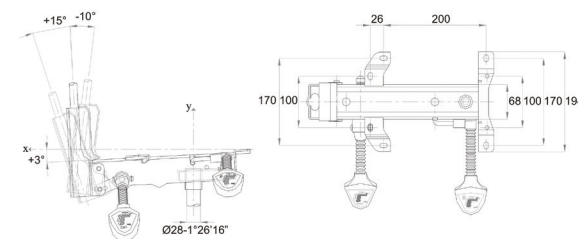

Heavy Duty Mechanisms

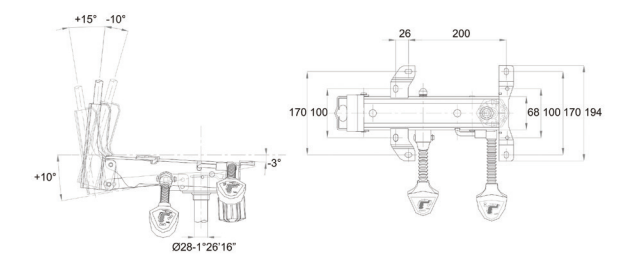

Heavy Duty Ratchet Mechanism YM 4901 1000

Heavy duty Euro fit mechanism with 2 lever controls for seat height adjustment and back rake angle adjustment to $+15^\circ$.

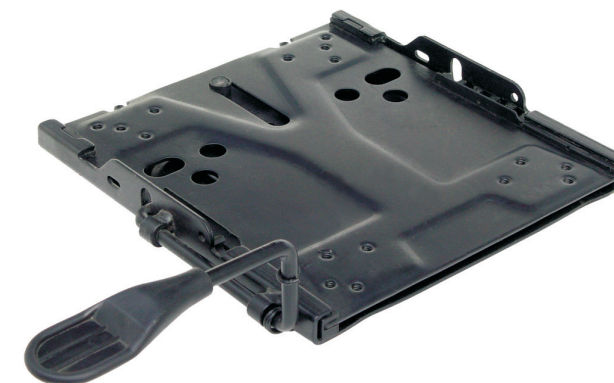

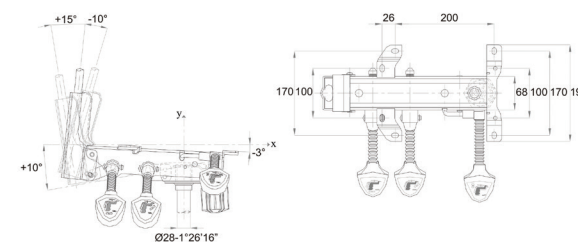

Heavy Duty Ratchet Mechanism YM 4905 1000

Heavy duty Euro fit synchro mechanism with levers for seat height and 2:1 synchro back/seat adjustment knob for tension control.

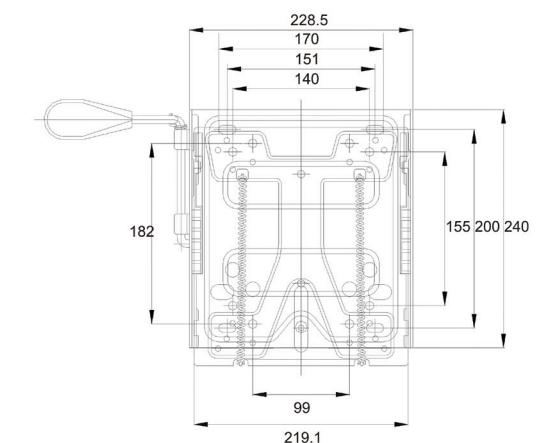

Heavy Duty Ratchet Mechanism YM 4903 1000

Heavy duty Euro fit mechanism with 3 lever controls for seat height adjustment, back rake angle adjustment to $+15^\circ$ and seat tilt adjustment knob for tension control.

Seat Slide YM 4000 1010

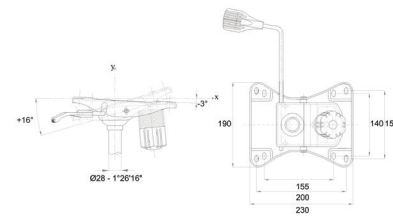

Tilt Mechanisms

Tilt Mechanism
YM 8330 1000

Tilt mechanism with single lever control for lock and seat height adjustment.

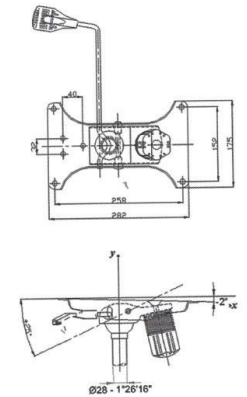

Tilt Mechanisms

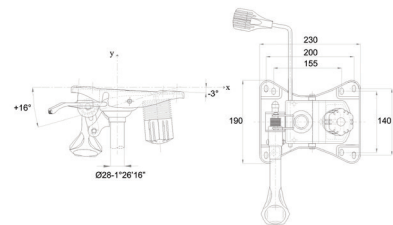

Tilt Mechanism
YM 8740 1000

Tilt mechanism with single lever control for lock and seat height adjustment.

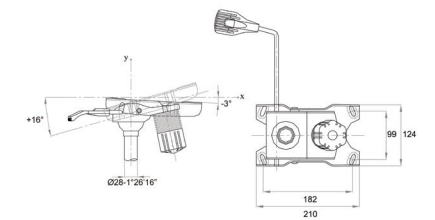

Tilt Mechanism
YM 8335 1000

Tilt mechanism, with 2 levers for seat height adjustment and tilt with variable lock.

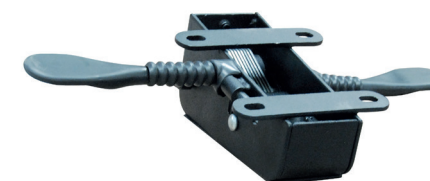

Tilt Mechanism
YM 8980 1000

Tilt mechanism with single lever control for lock and seat height adjustment.

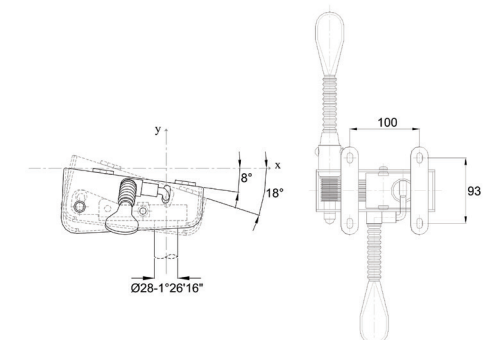

Saddle Mechanism

Saddle Mechanism
YM 1350 1000

Tilt mechanism, with 2 levers for seat height adjustment and tilt with variable lock.

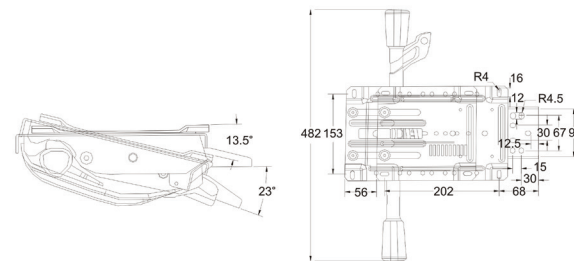

Knee Tilt Mechanisms

Knee Tilt Mechanism
YM 9401 1000

Knee tilt mechanism.

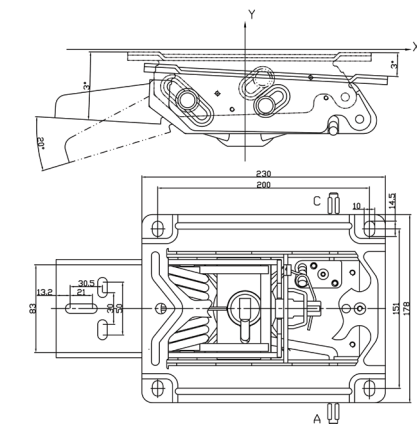

Self Tensioning Knee Tilt Mechanisms

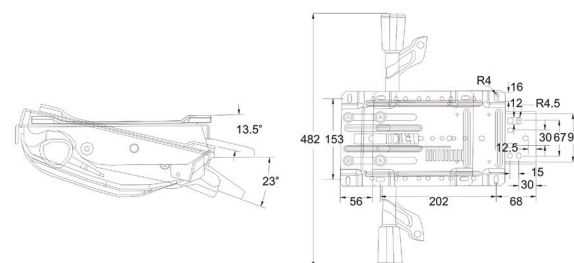

Self Tensioning Knee Tilt Mechanism
YM 9415 1000

Standard self tensioning knee tilt mechanism.

Knee Tilt Mechanism With Seat Slide
YM 9401 1010

Knee tilt mechanism with integral seat slide.
